Located in the heart of Adelaide's media precinct, IVC has made the 19th Century Church renovation a focal point for their extensive training facilities. Exposed stonework combines with state-of-the-art audiovisual equipment to present Adelaide's most innovative training and function centre. After 12 years' delivering advanced 3D animation and visualisation training and production in Australia and overseas, the IVC team had its own wish list for the perfect training facility. The custom designed centre has been designed from the ground up to make it easy to "plug and play" your presentations in the format of your choice, all in a harmonious atmosphere conducive to productivity and learning.
